Portable, Durable, and *Affordable*

Top trainers use CPR Prompt® manikins because they are designed with the instructor in mind.

- Advanced design features realistic head tilt, visible chest rise, and audible chest clicks for instant feedback.
- Unique piston easily converts adult manikin to a child manikin.
- Torso design is ideal for AED and Heimlich maneuver instruction.
- Lightweight and easy to carry.
- Field-proven to be durable and easy to clean.
- Affordable price allows for important one to one student-manikin ratio.

Made in the U.S.A.

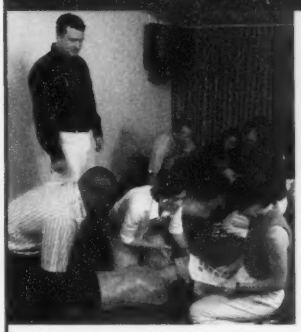
First Aid Training Made Easy



An innovative approach. Quality assured.

MEDIC FIRST AID® training programs are designed to create a student-centered, low stress learning environment. All programs meet OSHA regulatory requirements and integrate up-to-date medical guidelines.

MEDIC First Aid offers flexible training programs:

- MEDIC FIRST AID Basic, Version 5.0—Combined CPR/First Aid course
- Pediatric—Combined infant, child, and adult CPR & First Aid
- Basic Life Support for Professionals—Professional-level CPR training
- Automated External Defibrillation
- Bloodborne Pathogens
- Emergency Oxygen
- Trainer courses and other supplemental health and safety courses

Become a MEDIC FIRST AID Instructor. Find out how. Visit medicfirstaid.com or call 800-800-7099.

SUSPENSION SYSTEMS

BECAUSE PEOPLE ARE COUNTING ON YOU, COUNT ON US!

When someone else's life is in your hands, you'll be glad you can depend on the extra margin of safety that comes with *ipd*.

The *ipd* suspension package makes your emergency vehicle safer and easier to drive and creates a more stable ride, whether you're carrying a critical patient in an ambulance or heavy tools to a rescue.

ipd safety anti-sway bars distribute weight evenly and improve tire-to-road contact to increase control and help you safely maneuver road hazards.

Call 1-800-544-3164
ipd
P.O. Box 20339, Portland, OR 97294, Dept. 3006
